Motor Throbs

Spare Parts of News Picked up Among Dealers and Other Gasoline Destrovers.

Your motor, when running is constantly threatened by metal-scorching heat — by grinding friction. It's an oil's job to withstand that heat, to prevent raw metal from chafing against raw metal. Right there ordinary oils fail. They wither and burn and break down. And when your motor-oil fails, you pay big repair bills. consequently, experienced drivers have learned to use only Weedel—the oil that gives the fighting "film of protection"—that at tissue, smooth a sile, tangh as isted. The oil that is tested to withstand heat 100 degrees hotter than the hottest friction spot in your car.

Today, drive up to the dealer who displays the orange and black Veedol sign. Ask for Veedol by name. If you drive a Ford, ask for Veedol Forzol.

The high cost

of cheap oil

In S a funny quirk in human nature that people hangle over the price of a quart of motor-oil. Yet if they were able to save the entire yearly cost of oil it would amount to only a few dollars, while the cost of repairs caused by the cheap oils they buy often runs into hundreds of dollars.

Here's why cheap oils often fail -

MOTOR CAR SUPPLY CO. OF CANADA, LTD.

We Believe VEEDOL Is an economical oil to buy

W ITH New Lower Prices is now combined the most Amazing Quality in all Chevrolet history.

Chevrolet has widened the circle of automobile ownerprovided economical transportation to untold thousands . . . placed within reach of the average motor-car buyer a QUALITY and a LUXURY beyond all expectations.

In judging Chevrolet look not merely at what you pay, but also at what you ger. Consider the smooth, fleet performance, the grace and beauty of the Fisher bodies, the ease of starting, driving and stopping, the refined yet rugged quality evident throughout Chevrolet construction.

Weigh Chevrolet quality with Chevrolet price and know why Chevrolet has achieved the most spectacular popularity of any car in the world.

Four-Bearing

Crankshaft Eliminates Vibration

re exhaustive research, Velle engineers chose a Ma
4-Bearing Cranishaft in preference to a slender
searing cranishaft for these reasons: (1) Vibratrents. The search of the search of the search of the search
search of the search of the search of the search
due to transmission resistance. (2) Logically,
our shorter, thicker cranishaft itsels subject
to these influences than a long, thin one.
(3) A short 4-Bearing Massive Shaft, by
Its super-strength and great weight,
eliminates both 'twist' and 'spring'
